

CHANDRAHAS PARMAR

SENIOR SOFTWARE ENGINEER

Phone: +91 7043530350 **Email:** sonusam009@gmail.com **Location:** Bharuch, Gujarat, 392001
LinkedIn: <https://www.linkedin.com/in/chandrahas-parmar-49a783114/>

PROFESSIONAL SUMMARY

Senior Software Developer with 9+ years of experience designing and delivering enterprise-scale web applications using Angular, NestJS, TypeScript, and PostgreSQL. Proven expertise in leading frontend architecture, modernizing legacy applications, and building scalable, high-performance solutions. Experienced in mentoring development teams, conducting technical interviews, performing code reviews, and collaborating directly with international clients to translate business requirements into technical solutions. Passionate about software architecture, clean code, performance optimization, and leveraging AI-assisted development tools to improve engineering productivity.

CORE COMPETENCIES

- Technical Leadership
- Full Stack Development
- Team Mentoring
- Agile & Scrum
- Angular Architecture
- System Design
- Code Reviews
- Client Communication
- Enterprise Application Development
- Performance Optimization
- Technical Interviews
- Solution Architecture

TECHNICAL SKILLS

Frontend	Angular (v4-v19), TypeScript, JavaScript (ES6+), RxJS, Angular Signals, NgRx, Standalone Components, Reactive Forms, HTML5, CSS3, Bootstrap, Angular Material
Backend	NestJS, ASP.NET Web API, TypeORM, RESTful APIs, JWT Authentication, Role-Based Authorization
Database	PostgreSQL, MySQL, Microsoft SQL Server
Architecture & Practices	Enterprise Application Architecture, Progressive Web Apps (PWA), Lazy Loading, Route Guards, Change Detection Optimization, SOLID Principles, Design Patterns, Responsive Design
Development Practices	Agile (Scrum), CI/CD, Git Flow, Code Reviews, Unit Testing, Performance Optimization
Tools	Git, GitHub, GitLab, Jira, Redmine, VS Code, Visual Studio, SSMS, pgAdmin
AI Tools	Cursor AI, GitHub Copilot, ChatGPT, Blackbox AI

LEADERSHIP & PROFESSIONAL EXPERIENCE

Senior Software Engineer

April 2022 - Present

NeoSOFT Technologies, Ahmedabad (Remote)

- Led frontend development and technical architecture for multiple enterprise web applications using Angular and modern frontend technologies.
- Provided technical leadership to development teams by defining architecture, reviewing designs, mentoring developers, and ensuring engineering best practices.
- Partnered with business stakeholders to translate requirements into scalable technical solutions and deliver high-priority product enhancements.
- Drove application modernization initiatives including Angular migrations, performance optimization, and reusable component architecture.
- Established coding standards, reviewed 200+ pull requests, and maintained high-quality, maintainable, and scalable codebases.
- Conducted 300+ technical interviews and designed technical assessment frameworks for Angular and Full Stack hiring, contributing to the recruitment of high-performing engineering teams.
- Mentored 20+ developers through technical guidance, code reviews, and knowledge-sharing sessions.
- Led sprint planning, technical estimation, backlog refinement, and release planning within Agile development environments.
- Worked closely with QA and DevOps teams to ensure smooth deployments, production stability, and continuous improvement.
- Leveraged AI-assisted development tools including Cursor AI, GitHub Copilot, and ChatGPT to accelerate software delivery, improve code quality, and enhance developer productivity.

Senior Software Engineer

August 2021 - April 2022

Mobio Solutions, Vadodara

- Developed responsive and scalable Angular applications using modern UI components, RESTful APIs, and enterprise development best practices.
- Collaborated with UI/UX designers, backend developers, and business stakeholders to deliver business-critical features within Agile sprint timelines while improving application performance through optimized component architecture.
- Participated in technical discussions, effort estimation, sprint planning, production deployments, and peer code reviews to ensure high-quality and reliable software delivery.

Software Engineer

August 2018 - August 2021

Radixweb, Ahmedabad

- Developed full-stack enterprise applications using Angular, ASP.NET Web API, and Microsoft SQL Server.
- Designed reusable frontend components and optimized database queries to improve application performance and reduce development effort.
- Collaborated with business analysts, QA teams, and stakeholders to deliver scalable, reliable, and maintainable software solutions.

Software Engineer & Intern

February 2017 - August 2018

Helios Solutions, Vadodara

- Developed responsive web applications using Angular, ASP.NET Web API, and Microsoft SQL Server, contributing to the successful delivery of enterprise software solutions.
- Built reusable UI components and collaborated across the complete software development lifecycle, including requirement analysis, development, testing, and deployment.
- Successfully transitioned from Intern to Software Engineer based on strong technical performance, quality of deliverables, and consistent project contributions.

KEY PROJECTS SHOWCASE

IGH Automation

January 2023 - June 2026

Technologies: Angular 14/17, TypeScript, REST APIs

- Designed and developed a mission-critical enterprise digital checklist application, digitizing inspection workflows and improving operational efficiency.
- Led the migration from Angular 14 to Angular 17, modernizing the application architecture and improving maintainability through reusable components and optimized change detection.
- Collaborated directly with German clients to analyze business requirements and deliver scalable enterprise solutions using dynamic forms, workflow-driven modules, and REST API integrations.

IIFL Securities

April 2022 - January 2023

Technologies: Angular 11/13

- Modernized an enterprise trading platform by successfully migrating Angular 11 applications to Angular 13, improving maintainability and application stability.
- Resolved legacy architectural challenges while delivering business-critical features and ensuring production stability throughout the migration.
- Partnered with business stakeholders and development teams to implement high-priority enhancements within Agile sprint timelines.

Roadside Equipment & Incident Management

August 2021 - April 2022

Technologies: Angular 10/13, Node.js, MongoDB

- Developed enterprise modules for roadside equipment and incident management using Angular, Node.js, and MongoDB.
- Built real-time dashboards and event-driven workflows to improve operational monitoring and incident response.
- Collaborated with cross-functional teams to deliver scalable, maintainable, and high-performance application features.

E-Commerce Web Application (Admin Portal)

November 2019 - August 2021

Technologies: Angular 10/13, ASP.NET Web API, REST APIs, MySQL

- Developed an enterprise administration portal for inventory, order, customer, and product management using Angular and ASP.NET Web API.
- Designed secure RESTful API integrations, optimized SQL queries, and implemented role-based modules to improve application performance and maintainability.
- Built reusable UI components and enhanced frontend responsiveness, delivering a scalable and user-friendly administrative platform.

EDUCATION

Master of Computer Applications (MCA)

July 2014 - April 2017

Maharaja Sayajirao University of Baroda, Vadodara

Bachelor of Computer Applications (BCA)

July 2011 - April 2014

Veer Narmad South Gujarat University, Bharuch

KEY ACHIEVEMENTS

- Delivered 10+ enterprise-scale web applications for international clients across manufacturing, finance, and e-commerce domains.
- Led frontend architecture and Angular migration initiatives from Angular 11/14 to Angular 17.
- Conducted 300+ technical interviews and designed coding assessments for frontend and full-stack hiring.
- Mentored development teams through code reviews, architecture discussions, and technical training.
- Collaborated directly with international stakeholders to define technical roadmaps and deliver business-critical software solutions.
