

CHANDRAHAS PARMAR

SENIOR SOFTWARE ENGINEER | ANGULAR & FULL-STACK DEVELOPMENT

Bharuch, Gujarat, India | +91 7043530350 | sonusam009@gmail.com

LinkedIn: <https://www.linkedin.com/in/chandrahas-parmar-49a783114/>

PROFESSIONAL SUMMARY

Senior Software Engineer with 9+ years of experience delivering enterprise web applications, specializing in Angular, TypeScript, frontend architecture, and application modernization. Full-stack experience with Node.js, ASP.NET Web API, and relational databases; additional skills in NestJS and PostgreSQL. Reviewed 200+ pull requests, mentored 20+ developers, and conducted 300+ technical interviews. Experienced in Agile delivery and direct collaboration with international clients.

TECHNICAL SKILLS

Frontend: Angular (v4-v20), React.js, TypeScript, JavaScript (ES6+), RxJS, Angular Signals, NgRx, Redux Toolkit (Redux), React-Redux, React Hooks, React Router, Context API, Standalone Components, Typed Reactive Forms, JSX, Functional Components, HTML5, CSS3, Bootstrap, Angular Material

Backend & APIs: Node.js, NestJS, ASP.NET Web API, RESTful APIs, TypeORM, JWT Authentication, Role-Based Authorization

Databases: PostgreSQL, Microsoft SQL Server, MySQL, MongoDB

Architecture & Delivery: Lazy Loading, Route Guards, Change Detection Optimization, Progressive Web Apps (PWA), Responsive Design, SOLID Principles, Unit Testing, CI/CD, Agile/Scrum

Tools: Git, GitHub, GitLab, Jira, Redmine, Visual Studio Code, Visual Studio, SSMS, pgAdmin, Vite, Vercel, GitHub Copilot, Cursor AI

PROFESSIONAL EXPERIENCE

Senior Software Engineer

NeoSOFT Technologies | Ahmedabad (Remote) | Apr 2022 - Present

- Led Angular frontend development and technical architecture for enterprise applications, defining reusable components, coding standards, and modernization approaches.
- Reviewed 200+ pull requests and mentored 20+ developers through code reviews, architecture discussions, and technical guidance.
- Conducted 300+ technical interviews and designed Angular and full-stack coding assessments to support engineering recruitment.
- Collaborated directly with international clients to translate requirements into technical solutions; contributed to sprint planning, estimation, backlog refinement, and release planning.
- Led Angular modernization and performance optimization initiatives that reduced legacy-code risk, improved maintainability, and strengthened release reliability; partnered with QA and DevOps on deployments and production stability.

Senior Software Engineer

Mobio Solutions | Vadodara | Aug 2021 - Apr 2022

- Developed Angular modules for roadside equipment, incident, and event management using Node.js and MongoDB.
- Built responsive UI components and REST API integrations; collaborated with designers, backend developers, and QA on feature delivery, code reviews, and production releases.

PROFESSIONAL EXPERIENCE (CONTINUED)

Software Engineer

Radixweb | Ahmedabad | Aug 2018 - Aug 2021

- Developed full-stack enterprise applications using Angular, ASP.NET Web API, and Microsoft SQL Server.
- Built reusable frontend components and optimized database queries; collaborated with business analysts and QA teams across feature development and testing.

Software Engineer & Intern

Helios Solutions | Vadodara | Feb 2017 - Aug 2018

- Developed responsive applications and reusable UI components using Angular, ASP.NET Web API, and Microsoft SQL Server.
- Contributed across requirements analysis, development, testing, and deployment; progressed from Intern to Software Engineer.

SELECTED PROJECTS

Digital Checklist Application

Angular 14-20, TypeScript, REST APIs | Jan 2023 - Jun 2026

- Engineered an enterprise digital checklist application that digitized complex inspection workflows using standalone components, Angular Signals, typed reactive forms, and REST API integrations.
- Modernized the application from Angular 14 through Angular 20, introducing reusable components and optimized change detection to reduce duplication and improve maintainability.
- Implemented role-based workflows, dynamic validation, file handling, checkpoint navigation, and PWA capabilities while working directly with German clients to deliver inspection features.

Enterprise Trading Platform

Angular 11/13 | Apr 2022 - Jan 2023

- Migrated Angular 11 applications to Angular 13, addressed legacy architecture issues, and delivered business-critical enhancements while supporting production stability.

Roadside Equipment & Incident Management

Angular 10/13, Node.js, MongoDB | Aug 2021 - Apr 2022

- Developed equipment and incident management modules, real-time dashboards, and event-driven workflows for operational monitoring and incident response.

E-Commerce Web Application - Admin Portal

Angular, ASP.NET Web API, REST APIs, MySQL | Nov 2019 - Aug 2021

- Built inventory, order, customer, and product management modules; implemented REST API integrations, role-based modules, reusable UI components, and SQL query improvements.

PERSONAL PROJECTS

React Blog Application

React.js, Redux Toolkit, React Router, Appwrite, Vite, Vercel

- Built a personal blog application with reusable React components, React Hooks, Redux Toolkit state management, and React Router navigation; integrated Appwrite services and deployed to Vercel.

EDUCATION

Master of Computer Applications (MCA) | Jul 2014 - Apr 2017

Maharaja Sayajirao University of Baroda, Vadodara

Bachelor of Computer Applications (BCA) | Jul 2011 - Apr 2014

Veer Narmad South Gujarat University, Bharuch
